

HAPPY 25th ANNIVERSARY!

The long partnership over many years, between NNR GLOBAL LOGISTICS and DACHSER SE, culminated in 1993 with the founding of a joint venture company to operate in the region under the collaborative banner of:

NNR & DACHSER GMBH

Our objective has always been to offer customers a tailor-made service to suit in all regions, with special focus on the Far East and North America. Asia in particular plays by its own rules and a logistics company which is present with its own local representation knows these rules exactly and can complement a local understanding with a global framework.

As a premium service provider, we see ourselves as a partner who is responsible for the planning and optimum flow through the supply chain. Our goal is to provide top-quality performance, custom designed to suit our customers; excellent service at a reasonable price.

Since the founding of the joint venture, the cooperation between the two major freight forwarders has intensified. NNR+DACHSER GmbH now has branches in Frankfurt, Munich, Dusseldorf, Hamburg and Stuttgart and, since 2001, a subsidiary in Budapest, Hungary.

Happy Anniversary!
Herzlichen Glückwunsch!
