

"To face this [Coronavirus] challenge whilst adding value and enhancing services, needs to be commended - and shows a true specialist service. Congratulations to NNR!"

- British International Freight Association

SPECIALIST SERVICES AWARD WINNERS

We are so happy to share the news that on 26th January 2021, NNR were announced by the British International Freight Association, as this year's winners of the prestigious SPECIALIST SERVICES AWARD.

NNR UK Managing Director, Lee Griffiths, enthused *"it's an absolute honour and testimony to our team's dedication and ability to execute to strategy and deadline. Even during the most unprecedented circumstances, we achieved the unimaginable, battling and overcoming so many challenges. We are delighted!"*

The award was bestowed on NNR due to the ability to be resilient during the outbreak of Coronavirus, whilst continuing with the strategic deployment of a brand-new, purpose-built, state of the art logistics fulfillment center. Whilst combatting 'lockdown' and the challenges it presented, NNR successfully implemented new hardware and customer-connected software, with our customary keen eye on a deadline. New 'Application Programming Interfaces' afforded the ability to scale-up order processing to be able to dispatch thousands of orders every day. Two-way systems integration provided a timelier positive customer experience and greater efficiency; helping NNR and our customers to thrive in a booming E-Commerce environment. The dedication and positivity shown by NNR throughout the difficulties of 2020 ensured these Specialist Services were available on-time.

NNR Global Logistics UK were thrilled to win such an accolade from the industry trade association, among over 1500 members. The BIFA awards are strongly supported by excellent and proud organizations, recognizing innovation and excellence. The awards also represent a passion from those organizations to demonstrate why their teams are to be considered the best in the land.
