U.S.A. Region	City / Rail	Issue	Other
East Coast		No New Issues Highlighted	
	Valleyfield Intermodal Update (Montreal)	CN Valleyfield Terminal has successfully assisted in clearing the backlog and the terminal will be closing as of September 30th, 2022. Montreal destined traffic will be routed to CN's Taschereau intermodal Terminal. Customers are encouraged to expedite pick up of import loaded containers that are currently at the	facility as soon as possible. Any import loaded containers that remain of Valleyfield Intermodal Terminal after September 30th, 2022 12:00 PM will be moved to CN's Taschereau yard and customers will be assessed on all associated costs involved with the transfer of containers.
	CN Toronto/Montreal Update:	Though efforts to decongest the ports continue to be successful. We are still facing a high volume loaded import steamship line containers dwelling at CN intermodal terminals in Toronto and Montreal as such, CN is opening additional relief container yards to manage this volume and may choose to move international	containers to any of the designated locations. The locations for containers moved will be reflected on www.cn.ca. We all have our part to play in the supply chain and we encourage all stakeholders to assist by picking up their import containers in a timely manner from our terminals.
	Charleston Chassis Shortage	Due to a continued shortage of available chassis in the Charleston markets (Atlanta, Charleston, Jacksonville, Nashville, and Savannah) we are experiencing extended delays in pick-ups, deliveries, and drayage to/from the rail facilities.	
	CSX Update – Export to JAX	Due to continued congestion in Jacksonville, we have observed delay in train operations for cargo arriving in Jacksonville ICTF for load out if Trapac.	
	Norfolk Southern "Tier 1" facility update	NS has Announced that Detroit (Livemais), Jacksonville, and Cleveland (Maple heights) rail ramps will be adjusted from tier 1 for international storage rules	
	CSX Philadelphia Update	Effective Tuesday, September 20th, CSX restored rail reservations (RV's) from all origin rail ramps for delivery to Philadelphia. RV's have been suspended since Sept 6th, once the daily allocation is full trucker will need to be advised to check ship CSX for first available return date.	
	Cleveland update (CSX)	Effective Saturday, September 10, the American Marine Express (AMX) container yard will begin providing grounded services in addition to wheeled services for the Cleveland, OH. Terminal for grounded containers customers must bring a chassis to the AMX container yard for their live lift. The parking location in Ship CSX and the X gate app will indicate whether the container is grounded or on wheels, grounded units will show as AMX GRND and	wheeled units will show as AMXDARLEY. The AMX container yard address hours of operation, Ph number are as follows: American Marine Express (AMX) Cleveland 14500 Darley Avenue, Cleveland, OH 44110 0800-1700 EST Monday to Friday 0800-1400 EST Saturday, Sunday closed 216-268-3005, option 6
	Newark to Ohio Valley (CSX)	CSX has metered import cargo from any NWK terminal to Ohio valley destinations due to severe congestion at destination ramps. PNCT	port Newark will attempt to move longest dwells first whenever possible, dwell times are expected to increase at origin.
	Ohio Valley Chassis Shortage	Chassis delicts continue to be observed on a weekly basis in Cincinnati, Columbus and Louisville markets. TRAC can be pursued for support as our approved secondary provider.	Please assist with return of any dwelling equipment to mitigate ongoing limitations in the area.

U.S.A. Region	City / Rail	Issue	Other
Midwest	Chicago/Dallas Import	Due to congestion at destination ramps and accumulating backlog of cargo at origin ports, delays are to be expected in origin departure from long beach and Oakland for rail deliveries	to the Chicago and Dallas/Fort Worth areas. Please arrange for timely pick up of all arriving import units at destination to assist with drive for operations fluidity.
	Chassis Shortage	Chassis deficits continue to be observed on a weekly basis in Chicago. TRAC chassis can be utilized as our approved secondary provider. Please assist with the return on any dwelling equipment in these locations to mitigate continued equipment limitations.	
	BNSF Logistics Park (Chicago)	Have removed all destination specific ingate restrictions. All destinations including LGB ITS will be open for receiving during normal published hours of operations.	
	Louisville CSX Update	Effective November 9, the Louisville, KY CSX terminal will use an additional provisional container yard for international freight to ensure continued safe and efficient operations at this facility. The new Louisville container yard is a grounded operation and customers must bring a chassis to pick up their container within Ship CSX and the X gate app, the parking location will show as CYOIS.	The OIS container yard address, hours of operation, phone number are as follows.  OIS Louisville 4420 poplar Level Rd, Louisville, KY 40213 0800-1630 EST Monday –Friday Closed Saturday –Sunday Phone #614-259-1261
	Detroit NS	NE Livernois has REMOVED the restriction surrounding export allocations.
